AIM OF THE COURSE

The Course consists in a 4-day update on diagnostics challenges and management decisions for bone and soft tissue tumors, with a particular emphasis on the clinico-pathologic and radiographic correlations.

It is addressed to orthopaedic surgeons, oncologists, pathologists, radiologists and basic researchers who want to improve their knowledge on bone and soft tissue tumors.

The format includes interactive sessions, multidisciplinary case discussions and lectures by internationally renowned experts in the field of musculoskeletal oncology. During the last course day the participants will work in teams to test their knowledge in a final contest of unknown cases.
